REPORT OF THE SANDOWN PLANNING BOARD

During the year, the Planning Board has talked with Town Officials and interested citizens about the future progress of the town, and has found them very cooperative.

The duties of the Planning Board, which meets once a month, are to recommend to the town officials, improvements for town betterment, and advise the public on improvements.

Among the suggestions and recommendations made were:

Development of a long range program for the tarring of our roads, and more specifically, the tarring of the North Road this year.

A recommendation that contact be made with the State Highway Dept. to see if State Aid could be furnished to assist the town with our road program.

The Planning Board recommends that all roads in town be officially named, and suitable signs erected.

The Planning Board has suggested to the School Board, improvements around the Pine Grove School, including warning signs along the road, and construction of an inexpensive play area.

We are considering several types of Town Maps, in view of furnishing an appropriate map for various town uses.

The Planning Board would be glad to have the public at their meetings, and hear suggestions for improvements from the citizens.

In aiding the officials, with our cooperative work, we hope to see a better Sandown in the future.

SUPERINTENDENT'S ANNUAL REPORT

To the School Board and Citizens of Sandown:

I am happy to submit this my first report, as your Superintendent of Schools:

The past year has brought many changes to Sandown's educational picture. The present international and economic situation is conducive to lack of stability. Price increases in cost of living and practically all other items cannot help but be reflected in the school district's budget. It is hoped that those factors will be given due consideration.

This report is accompanied by a page devoted to Return of District Revenue, which shows the actual budget we are operating on this year. (1950-51). In comparing this with next year's budget one must bear in mind the increased cost of school supplies as well as the fact that good schools require continuity in their teaching staffs.

Teachers

Sandown has been fortunate in being able to hold their teachers. Mrs. Allen and Mrs. Guinesso are doing fine work with the facilities at their disposal. It is commendable that the school board and citizens of Sandown are not satisfied with these facilities but are looking toward the future and adding to a capital reserve fund for a new consolidated school.

Hot Lunches

The hot lunch program under the guidance of Mrs. Nellie K. Geisser has been a valuable asset to the school program. Surplus foods from the U. S. Dept. of Agriculture has made orange juice, apples, potatoes, tomatoes, peanut butter, cheese, and even frozen turkey available to the school children through the medium of one hot dish daily.

It is hoped that in another year a definite program of educational movies can be set up, whereby textbook material can be supplemented by timely visual aids.

Finally, I wish to express my appreciation to the school board, citizens, teachers and pupils of Sandown for the spirit of coopera-

tion and friendliness with which they have received their new Superintendent.

Respectfully submitted,
Louis L. Ramsay, Supt.

HEALTH SUPERVISION

To the Superintendent of Schools and the School Board:

Your school nurse welcomes this opportunity to inform you in regard to what has been accomplished from the standpoint of health education during the past year.

The children received the usual yearly physical check-up consisting of an examination of teeth, tonsils, posture, vision, and hearing as well as weighing and measuring. Little Health Talks on timely subjects were given in the classrooms. Home visits have been made, and follow-up work carried out.

Probably no subject is of greater concern to parents and teachers than the health of the children in their care. The parents have shown an increased interest in establishing closer relationship between school and home in the mutual striving for better health objectives.

The Maico Individual Audiometer, a recent acquisition of our Union, has been most useful not only as a hearing test, but as a check on the possible impairment of hearing caused by measles, ear infections, scarlet fever, etc.

In closing, I wish to express my thanks for the full cooperation of the parents, teaching staff, friends, and public organizations that have given time and enthusiasms toward the betterment of our health program.

Respectfully submitted,

Constance Cooper, School Nurse

REPORT OF MUSIC TEACHER

To the Superintendent and School Board, Citizens of Sandown:

Children learn a great deal about music through songs, rhythms, folk dances and games. These activities will add greatly to their enjoyment and understanding of music.

A Christmas program was presented at the town hall in December and through the cooperation of the teachers, parents and pupils proved successful.

The upper grades have profited greatly, and are gaining a great deal of pleasure from their new books, Sing Out. The new piano has been a tremendous aid in learning new songs.

Tonettes were purchased shortly before Christmas and the children, through playing their new instruments, are learning a great deal about music reading.

The lower grades are fortunate in having rhythm band equipment this year.

At present the two schools are planning a program including selections on their tonettes, rhythm band numbers and folk dances.

In addition to the above described work the usual program has been carried out. Each child has been given instruction appropriate to his grade in music theory, music appreciation, folk dancing and rhythm band work.

I wish to express my appreciation to the School Board, superintendent, teachers, parents, pupils and other citizens for their cooperation.

Respectfully submitted,

Jean L. Readio
Music Supervisor
